A FATAL UMBRELLA POINT.

The Injured Man Died This Morning and Left No Word as to the Identity of His Assailant-The Police Absolutely With-

brella. Who Is Now a Murderer. Jabbing a man in the eye with an umbrella and killing him is one of the latest and most singular murders in the annals of crime in

Then the escape of the murderer and the lack of even a single clew as to his identity, though the tragedy occurred in the open street shortly after midnight, adds mystery to

the crime and baffles the detectives. James Fogarty, a young man of twenty-, three years, a vender of vegetables, is the victim, and his death occurred at the Gouyerneur Hospital at 6.30 o'clock this morning. He lived at his father's house, 43 Oliver street, and was unmarried.

Fogarty was found lying in an unconscious state on the sidewalk at the corner of Catharine and Cherry streets, near the old Catha-

rine and Cherry streets, near the old Catharine Market, shortly after 12 o'clock Saturday night, by a young man who had been eating hot corn on an opposite corner.

Officer Stange, of the Madison street station, was notified, and it was discovered that the point of an umbrella stick had been thrust into the man's right eye, and it had broken off so that a piece about 2½ inches long remained in the head, penetrating through the frontal bone and lacerating the brain.

brain.

The injured man was removed to the Gouverneur Hospital, where Dr. Bird extracted the broken stick. Fogarty never recovered consciousness and died at the hour above mentioned without uttering a word, thus leaving no clue to the identity of the man who caused his death.

A Mrs. Cauffield was selling hot corn at the market corner when the assault was committed, but she says she did not see either the injured man or his assailant. A woman named Mrs. Sweeney is said to have seen the assault and to know more about it than she is willing to tell is willing to tell

MRS, STOWE LEAVES SAG HARBOR.

Her Journey by Water Towards Hartford Secus to Revive Her Strength.

SAG HARBOR, Sept. 10.—Mrs. Harriet Beecher Stowe passed a comfortable night aboard the steamer Sunshine. Her stateroom was an airy one, and the gentle motion of the steamboat rocked her to sleep. She slept sweetly as a child, awaking but twice. Her son and two daughters took turns in

watching by her side, while Dr. Stirling was within easy call.

Mrs. Stowe awoke at 6 o'clock this morning feeling much more comfortable than when she arrived on board the boat last night. She was much fatigued after her three-mile ride in the carriage from Dr. Cor-

win's farm at North Haven, but her good night's rest enabled her to recuperate.

She took some light nourishment at 6.30, after which she felt better. Dr. Sterling then attended her and found her condition such that he did not deem it necessary to accompany her to Hartford, nor did her son and daughters consider his presence on the trip a necessity.

necessity.

At precisely 6.45 this morning the Sunshine cast off her lines and started for Hartford.

Besides her son and daughters Mrs. Stowe was accompanied by two servants. A physician will meet the party on the arrival of the boat at Hartford.

Although Mrs. Stowe shows a temporary myrrovement it is considered certain that

The vacation has wrought a decided change in the condition of both teachers and pupils. That the latter were anxious to get to school and very happy in this thought was evident to every one who saw them tripping off towards their respective schools this morning.

Clad in their pretty school dresses and clean white aprons, and with books under their arms, the misses, big and little, moved along in groups resuming acquaintance with friends of last year, and each rehearsing what she had been doing all summer.

It is estimated that there will be at least 5,000 more scholars in the public schools this year than there was last. There was crowding in many of the schools last year, and a renewal of this difficulty may be expected in the school year which has just begun.

However, the scholars will be taken care of as well as is possible under the existing circumstances, and, according to President Simmons, room will be found for all.

During the summer the Vandewater street school has been improved to the extent of \$4,000. Mr. Frederick Wimmer, Chairman of the Board of Trustees in that ward, has superintended the work and the improvements are shown in new floors, &c. The capacity of this school is ample, so there was no enlargement of the rooms.

MYSTERY.

The Assault Upon Broker Bennett in Jersey City.

No Clew as Yet to the Identity of the Assailant,

The Old Man Told His Son He Didn't Know Who Hit Him.

The mystery surrounding the robbery and possible murder at the home of Broker Daniel H. Bennett, 1905 Forrest street, Jersey City, which occurred some time vester day morning, deepens hourly.

Detectives Clos, Dalton and Holtic and Capt. Smith have been searching for clues ever since the news of the crime was received, at 8.30 yesterday morning, but with poor results. They have concluded that the motive of the crime was not robbery, but that something is behind it all, the nature of which is yet to be determined.

The disappearance of the watch and chain and the hastily arranged parlor window are regarded as mere attempts to conceal the real motive and manner of the crime.

Chief Murphy believes that the murderous blow on old Mr. Bennett's temple was dealt while he stood erect, and not while he slept.

blow on old Mr. Bennett's temple was dealt while he stood erect, and not while he slept. The nature of the cut indicates this.

The theory given most credence is that the assassin was hidden in the house before the return of young Augustus Bennett front Greenville, Saturday night, and that after the assault he left by the front doors, leaving both open. The window might have been arranged as a mode of escape in cuse of the man's detection by young Bennett.

It it certain that no one passed either in or out of the house through the window. The house is now in charge of the police, and no one but doctors, detectives or members of the family are permitted to enter.

An Evening World reporter saw young Mr. Bennett, however, and learned from him that his father had recovered consciousness and appeared to be railying.

"When Dr. Wilkinson entered the room this morning," he said, "father recognized him and shook hands with him. The doctor's orders are that he shall not speak or be spoken to, but before he had given them I asked father, Who hit you?" He answered in a whisper, 'I don't know."

"I asked him again if he knew with what he was struck, and he answered the same way. Then he mumbled something else which I could not hear, and he has not spoken since."

It is Dr. Wilkinson's belief that careful nursing may save Mr. Beunett's life, His seventy-four years and his great loss of bood are a ainst him, but the skull is not fractured, and recovery is possible. A careful nursing may save Mr. Beunett's life, His seventy-four years and his great loss of bood are a ainst him, but the skull is not fractured, and recovery is possible. A careful nursing may save Mr. Beunett's life, His seventy-four years and his great loss of bood are a ainst him, but the skull is not fractured, and recovery is possible. A careful nursing may save Mr. Beunett's life, His seventy-four years and his great loss of other articles of value were available to a burglar in every room of the house, but all were unmolested.

Young Mr. Bennett found \$4

molested.
Young Mr. Bennett found \$4 in bills in the vest and believes that the amount was all that his father had about him, unless a large sum with which he purposed to pay bills Saturday had not been expended.
It would seem from these tacts that the police theory that robbery was not the motive of the crime is a true one.
The number of the watch was obtained today from Benedict & Co., from whom it was purchased.

purchased.
Chief Murphy has notified Inspector
Byrnes, of New York, and Supt. Campbell,

of Brooklyn, of the fact, and every pawnshop in the two cities will be visited.

Two other robberies occurred between 12
and 3 o'clock yesterday morning within three
or four blocks of the Bennett home, but
Chief Murphy does not connect them with
that on Forrest street.

The home of W. E. Hall, 121 Ocean avenue, was entered by a rear basement window
and a quantity of silver was stolen. That of
W. J. Tait, at 78 Randolph avenue, was
also opened, a garden tool being used to
pry open a window. Silver spoons, umbrellas and a pair of all ppers were taken
from this house. The work of the thieves in
both cases convinces Chief Murphy that they
were novices.

from this house. The work of the thieves in both cases convinces Chief Murphy that they were novices.

The circumstances of the Bennett case are entirely different. The means of entrance of the assassin are still unknown. Chief Murphy believes that whether he was secreted in the house or not, he was fully acquainted with it, as no stranger could have mounted the stairs and dealt the murderous blow without making noise enough to waken young Bennett in the adjoining bedroom. The deed must have been done in darkness, too, for the gas had been turned off, and no burnt matches, which would have been used in lighting an oil-lamp, were found.

These points only add to the mystery of the case, which bids fair to become a noted one. Mrs. Bennett and her daughters, who have been spending the summer at Granville. N. Y., were summoned by telegraph, and will arrive in Jersey City to-day.

Swentzel is employed as a clerk. He feit sick and Walter told him to go into the back room and lie down. He lay upon a sofa and soon fell asleep. He was awakened by somebody fumbling at his pockets, and saw Walter with his watch in his hand. John was present at this time.

He got up and followed them into the store, demanding his watch. They denied having the watch, and an officer was called in and airested both. Later Mr. Martin, proprietor of the drug store, sent the watch to the station-house, saying it had been found in a drawer in the store. The accused denied all knowledge of the watch. They were held in \$700 bail for trial.

KILLED HIS OLD FATHER.

John Flynn Becomes a Parricide for the Sake of a Little Pecket Money. An old man died in Chambers Street Hos-

oital this morning from a stab wound inflicted by his own son, who is in custody. Myles Flynn, sixty-two years old, lived with nis nineteen-year-old son John at 311 Water 44 Thompson street, and William Mestreet, occupying two rooms together on the Curdy, of Watta and Washington streets, first floor. Yesterday afternoon a man going through the hallway heard an angry dispute going on between the two Flynns, and a lew minutes later the boy ran out in the hall and jumped on the fire-escape in the front of the

On the 18th of that month two Evening World reporters started out to collect evidence against some of the most notorious of these sh ps, which were running in open violation of the law, and numbered among their victims a lot of newsboys, erand hoys and clerks whom they enticed into their places and induced to invest in policy slips. They visited all the shops they could flud, and succeeded in purchasing slips from Siebert, Smith and McCurdy, Charlie Blair, the newsboy, better known as "Blizzard," was engaged as a sort of assistant detective, to work the other shops, and he finally obtained tickets at the places of Frank Collins and George Brown.

at the places of Frank Collins and George Brown.

A few days afterwards, when warrants had been obtained, raids were made by the police on all the shops, and the five proprietors were arrested and soon after indicted.

Twice before have the cases been on the calendar for trial, but both have been postponed on application of the defendant's cause each time. Assistant District-Attorney Davis gave the preference to The Evening World's cases this morning, aithough they were well down on the calendar, and they were well down on the calendar, and they the Court was ready for business.

the Court was ready for business.

William McCurdy was the first called. As usual, the first effort was made to obtain a further delay. Lawyer Coman stating that another counsel had been called in o the conand asked for a postponement of a week.

Mr. Davis urged the immediate disposal of all the cases, and was further supported by pistrict-Attorney Fellows, but when it was

Anthony Comstock was on hand, and bustled around considerably, apparently in no very amiable frame of mind to find that the energetic and active reporters of The Evening World had got in ahead of him where any arrests of p dicy men were concerned, and that he had no finger in the pia. It was rumored that he was going to ask for an adjournment of the other cases in order that he might look into the records of the defendants, some of whom he suspected had been arrested before.

Charles Siebert was called next, Through his counsel he pleaded go ity, and said he had never been arrested on the charge before, and declared that he had given up the business, closed his place and had left the State.

Judge Gildersleeve stated that if it was a case of first offense the only punishment that he could inflict would be a fine, but if the defendant had been previously convicted of the same offense he could imprison him.

There seemed to be a good deal of doubt as to whether or not Siebert was not an old oftender, and the Court finally decided to remand him for two hours in order that an investigation might be made into his previous record.

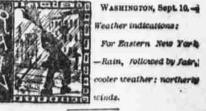

record.

George Brown, Henry Smith and Frank Collins were arraigned in succession, and they each pleaded guilty of the offense charged, but, like Siebert, they all claimed that it was their "first offense."

As in the previous case they were reamanded for two hours while their records could be searched.
